Subject: RE: Update - DuPont

Hi Jacquie,

I don't think there is an attachment. I am going to check my management's schedule (including the DD) and get back to you.

Thank you,
Jenny

Subject: Update - DuPont
Importance: High

Hi Team – I spoke to Mike this morning and he confirmed that DuPont is okay with the language we negotiated last week regarding **Ex. 5 AC/AWP/DP**. We have reached an agreement in principle with the parties on the language in the Amendment, but I need to send this draft to Mike ASAP to ensure we are in fact in agreement on the language before we can start the Amendment through sign-off. **Please let me know ASAP this morning if you have any concerns with the attached draft Amendment before I send to Mike.**

Here are some follow-up items for the team:

Ex. 5 AC/AWP/DP

Ex. 5 AC/AWP/DP

- I indicated that EPA would like to have draft final documents (Amendment, SOW, and Model Water Treatment Plan) by the end of this week to solidify an agreement in principle, so we need all hands on deck to review and finalize any further edits to the SOW and MWTP by Friday.
- Mike indicated a strong preference for delaying signatures and execution of the order until after the holidays (January 1st) as next week will be difficult with vacation time in the mix. I need to know from R5 and from R3 whether it's feasible to have the Amendment signed next week, or if we are likely looking to the week of January 1st for signature.

I'm going to set up a team call for late tomorrow morning to go over where we are and what needs to happen next.
Thanks-Jacquie
